

**JONIX™**  
pure living

- Effective to remove bacteria, viruses, molds, yeasts and odor, etc  
有效去除細菌病毒、霉菌、異味及其他污染物等
- Europe classification of Medical Device Class 1  
榮獲歐洲認可的，真正一級醫療設備
- Elegant design and high quality materials  
典雅的設計
- Portable and free-standing  
體積輕巧，易於擺放
- Silent, Low power consumption  
寧靜舒適，省電節能
- Easy maintenance and operations  
易於操作及維護
- No filter replacement required  
無需更換過濾網
- Applied JONIX devices over the world  
真實見證，用戶已遍佈全球
- Many international authoritative test reports  
大量國際獨立權威的測試報告及認證
- 100% made in Italy  
100% 意大利製造

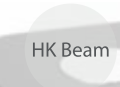

\* The results are clear and demonstrated that our device (JONIX cube) with Non-Thermal technology is ability to effective antiviral activity against SARS-CoV-2 (the virus that causes COVID-19), with a reduction in viral load equal to 99.9999%.

\* 測試結果明確地證明了 JONIX 的低溫等離子技術 (測試設備為 JONIX cube) 有效殺滅 99.9999% 的 SARS-CoV-2 (引起 COVID-19 的病毒)。

Model 型號	Cube
Brand 品牌	JONIX
Color 顏色	White / Black 白色 / 黑色
Control 控制	Direct Control 按鍵
Theory 原理	Non-Thermal Plasma 低溫等離子
Service area 適用面積	400 -600 ft2
Lifetime of Plasma Tube 建議更換等離子管年期	22000 Hours / 小時 Using 8-10 hours everyday, around 6-8 years (每日使用8-10小時, 約6-8年)
Power consumption (W) 耗電量	10
Dimension 尺寸 (WxDxH mm)	238 x 238 x 260
Weight 重量 (kg)	4kg
Origin 產地	Italy 意大利

No need to replace filter 無需更換過濾網

The above specification may subject to be changed without previous notice.  
以上產品規格如有任何更改，恕不另行通知。

Jonix Cube is an air purification device; its design and advanced technology of cold plasma are ideal to remove bacteria, mold, viruses, pollutants and odours. Air pollution has a direct effect on our body's vital functions and on our ability to stay healthy. Cube creates ideal conditions for our health, helping us an improvement of our overall state of health. It Helps to contribute to the reduction of asthma, bronchial asthma, allergies and colds, etc. And it eliminates the microorganisms in the air.

JONIX Cube 空氣淨化器採用了先進的低溫等離子技術，可去除空氣中的細菌、霉菌、病毒、異味和其他污染物。Cube 為我們提供一個具備理想空氣質素的環境，改善健康狀況如可為哮喘或過敏人士舒緩其呼吸困難的症狀、改善哮喘患者呼吸功能、改善身體機能及增加我們對氧氣的吸收。同時有效防止空氣中微生物於高密度人口及擁擠的房間進行污染。

Cube medical air purification

## Refuse to live with COVID-19

We are honored to announce our Non-Thermal plasma technology is capable of breaking down COVID-19. This was demonstrated in laboratory test conducted by Department of Molecular Medicine of the University of Padua (one of the most prestigious in Europe!). The scientific research was performed by Professor Crisanti.

The virucidal effectiveness test was performed in compliance with the EN 14476:2019 and EN 17272:2020 standard in a biosafety level 3 of laboratory which is according to WHO regulations. The results are clear and demonstrated that our device (JONIX cube) with Non-Thermal technology is ability to effective antiviral activity against SARS-CoV-2 (the virus that causes COVID-19), with a reduction in viral load equal to 99.9999%.

We once again thank our customers for their support and trust, and let JONIX air purification equipment continue to create a healthy and safe living environment for everyone.

由意大利帕多瓦大學 (歐洲最著名大學之一) 的分子醫學系的 Crisanti 教授進行的病毒效能報告證實了 JONIX 低溫等離子技術有效殺滅引致 COVID-19 的病毒 SARS-CoV-2 病毒。該測試是 EN 14476 : 2019 和 EN 17272 : 2020 標準，並於符合世界衛生組織規定的實驗室內進行。測試結果明確地證明了 JONIX 的低溫等離子技術 (測試設備為 JONIX cube) 有效殺滅 99.9999% 的 SARS-CoV-2 (引起 COVID-19 的病毒)。

我們再一次感謝客戶對我們的支持及信任，讓 JONIX 空氣淨化設備繼續為大家營造一個健康安全的生活環境。

### 14. CONCLUSION

#### Report excerpt (報告摘錄)

The results obtained show that the Jonix Cube device (Non-Thermal Plasma Technology (NTP)) has an **effective antiviral activity against SARS-CoV-2 with a reduction of the viral load equal to 99.99999% (about 7 logarithmic units) after only 30 minutes of exposure; this suggests that the achievement of the reduction level required by the technical standards (4 logarithmic units) may also occur for considerably shorter times.**
